## What is Refraction?

Refraction is a procedure necessary for our physicians to evaluate your vision and/or write you a prescription for glasses only. If you are experiencing blurred vision or decreased acuity as measured by the eye chart, a refraction would help determine whether the difficulty is associated with a medical problem or a need for glasses. During refraction, the physician

or technician offers you a series of lens choices until you reach the best corrected vision. Unfortunately, not all insurance plans cover this service and Medicare specifically excludes refractions as a covered benefit. The cost of the refraction is \$45. The payment is due at the time of service.

## When do I pay for a refraction?

Refraction is a non-covered service by Medicare. As a result, your healthcare provider is Required by CMS (the department of the federal government that controls Medicare) to charge for this service. Most other insurance companies follow Medicare's payor guidelines. All these insurance plans consider refraction a "vision" service not a "medical" service. Payment is due at the time of service. Milan Eye Center does not accept vision insurance. We file only to medical insurance.

## Who made this distinction for insurance coverage?

It is our government (for Medicare and Medicaid) or your own commercial insurance company that determines exactly which clinical services are covered by their policies, and not your physician. Therefore, if you have any questions or concerns regarding your coverage, you will need to address these with your specific insurance carrier.

## What is Milan Eye Center's Policy?

We are dedicated to providing our patients with the very best medical and surgical eye care. Therefore, refraction will be performed when medically necessary (typically this includes all new patients, those presenting with decreased vision and on a yearly basis thereafter.) Additionally, we are happy to perform refraction during any visit at your request. However, please keep in mind this service will not be covered and you will be responsible for this charge. You will only be charged if you receive a printed prescription for glasses. Our office fee for refraction is \$45. This is collected at the time of service in addition to any co-payment your plan may require.

**By signing, I understand and acknowledge the policy written above.**

### Examples of Disclosures for Treatment, Payment and Health Operations:

The following categories describe different ways that we use and disclose PHI. For each category of uses or disclosures we will explain what we mean and try to give some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of the categories.

**For Treatment.** We may use and disclose PHI about you to provide you with medical treatment or services. We may disclose medical information about you to doctors, nurses, technicians, medical students, or other personnel who are involved in taking care of you. For instance, we may need to share information about your condition with another doctor if you have complications and need additional tests.

**For Payment.** We may use and disclose PHI about you so that the treatment and services you receive at our practice may be billed, and that payment may be collected from you, an insurance company or another third party. For example, we may need to give your health plan information about services that you received at our practice so your health plan will pay us or reimburse you for the services.

**Out-of Pocket-Payments.** If you paid out-of-pocket (or in other words, you have requested that we not bill your health plan) in full for a specific item or service, you have the right to ask that your PHI with respect to that item or service not be disclosed to a health plan for purposed of payment or health care operations, and we will honor that request.

**For Health Care Operations.** We may use and disclose medical information about you for the practice's health care operations. These uses and disclosures are necessary to run our practice and to make sure that all patients receive quality care. For examples, we may use medical information to review our treatment and services and evaluate the performance of our staff in caring for you. This information can then be used in an effort to continually improve the quality and effectiveness of the health care services we provide. We may also combine medical information about many of our patients to decide what additional services our practice should offer, what services are not needed, and whether certain new treatments are effective. We may also disclose information to doctors, nurses, technicians, medical students, residents, and other practice personnel for review and training purposes. We may

We may disclose information as part of a sale, transfer, merger or consolidation of our practice to another entity covered by the Privacy Rule. In addition, we may disclose medical information about you to an entity assisting in a disaster relief effort so that your family can be informed about your condition and location.

**As Required By Law.** We will disclose medical information about you when required to do so by federal, state or local law.

**To Avert a Serious Threat to Health or Safety.** We may use and disclose medical information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person, any disclosure, however, would only be to someone able to help prevent the threat.

#### Special Situations:

**Research.** We may also do certain kinds of research using your records, but only if a legally authorized review board gives us permission to use your information and provided that the researcher says he/she will use safeguards to protect your information. You have the right to be notified of possible research involving your PHI and the right to opt out by calling our office or emailing us.

- Request communications of your health information by alternative means or at alternative locations,
- Request a restriction (opt out) on certain uses and disclosure of your information, purposes such as marketing, fundraising, sales and research, as proved by 45 CFR 164.522., 501, 508(a), 508(b)(3). **You may opt out by calling or emailing our office with your request,**
- Revoke your authorization to use or disclose health information except to the extent that action has already been taken,
- A right to be notified of a breach of unsecured PHI.

**Right to Inspect and Copy.** You have the right to inspect and copy medical information that may be used to make decisions about your care. To inspect and copy medical information that may be used to make decisions about you, you must submit your request in writing to our Privacy Officer or designee. If you request a copy of the information, we may charge a fee for the costs of copying, mailing, or other supplies associated with your request. We may deny your request to inspect and copy in certain very limited circumstances. If you are denied access to medical information, you may request that the denial be reviewed if the denial is made for certain reasons. Another licensed health care professional chosen by our practice will review your request and the denial. The person conducting the review will not be the person who denied your request. We will comply with the outcome of the review.

**Right on an Electronic Copy of Electronic Medical Records.** If you PHI is maintained in an electronic format (known as an electronic medical record or an electronic health record), you have the right to request that an electronic copy of your record be given to you or transmitted to another individual or entity. We will make every effort to provide access to our PHI in the form or format you request, if it is readily producible in such form or format. If the PHI is not readily producible in the form or format you request your record will be provided in either our standard electronic format or if you do not want this form or format, readable hard copy form. We may charge you a reasonable, cost-based fee for the labor associated with transmitting the electronic medical record.

**Right to a Summary or Explanation.** We can also provide you with a summary of your PHI, rather than the entire record, or we can provide you with an explanation of the PHI which has been provided to you, so long as you agree to this alternative form and pay the associated fees.

**Right to Amend.** If you feel that the medical information we have about you is incorrect or incomplete, you may ask us to amend the information. You have the right to request an amendment for as long as the information is kept by us for our practice. To request an amendment, your request must be made in writing or by email and submitted to our Privacy Officer or designee. In addition, you must provide a reason that supports your request. We may deny your request for an amendment if it is not in writing or does not include a reason to support the request. In addition, we may deny your request if you ask us to amend information that:

- was not created by us, unless the person or entity that created the information is no longer available to make the amendment;
- is not part of the medical information kept by or for our practice;
- is not part of the information which you would be permitted to inspect and copy or;
- is accurate and complete

**Right to Request Restrictions.** You have the right to request a restriction or limitation on the medical information we use or disclose about you for treatment, payment or health care operations purposes. You may also request a limit on the medical information we disclose about you to someone who is involved in your care or the payment for your care, like a family member or friend. For example, you could ask that we not use or disclose information to your spouse.

We are not required to agree to your request, unless you are asking us to restrict the use and disclosure of your PHI to a health plan for payment or health care operation purposes and such information you wish to restrict pertains solely to a health care item or service for which you have paid us "out-of-pocket" in full. If we do agree, we will comply with your request unless the information is needed to provide you emergency treatment.

To request restrictions, you make your request in writing or by email to the Privacy Officer. In your request, you must tell us (1) what information you want to limit; (2) whether you want to limit our use, disclosure or both; and (3) to whom you want the limits to apply, for example, disclosure to your spouse.
