

**Title:** Now Offering Telemedicine Appointments

**Sub-title:** On demand eye care for the safety and comfort of your home

--

Here at Milan Eye Center, we are pleased to offer you telehealth appointment options to access eye care and connect with your doctor from the comfort and safety of your home!

Appointments take about 10-15 minutes and are easy to do from your smartphone, computer or tablet! During this appointment you can discuss your eye health with your doctor, update any prescriptions, and ensure that your overall health and well being is in a good place during this national crisis.

- **Face-To-Face Appointments.** You will be able to connect with your doctor through a few simple steps.
- **No Software Downloads Required.** No need to download software or create an account. Just use a browser on a computer or device with a camera and microphone. We will send you a link via text and email 15 minutes prior to your appointment time to enter your doctor's virtual waiting room.
- **Covered by Insurance.** Virtual exams will be covered by most medical insurance plans.
- **Safe and Secure.** All data is encrypted, your sessions are anonymous, and none of your information is stored. We have made an effort to ensure our system is compliant with HIPAA, PIPEDA, and GDPR data privacy requirements.
